

Art Peace Sustainability A Global Interactive Art Event

The [International Art Therapy Organization](http://www.internationalarttherapy.org) [www.internationalarttherapy.org] and the [Art Therapy Alliance](http://www.arttherapyalliance.org) [www.arttherapyalliance.org] are sponsoring a global interactive event called "Art Peace Sustainability." Everyone is invited to submit postcard-sized format [5 x 8 inch] works reflecting these concepts for this event. You also can make "response art" inspired by the following questions:

Does art therapy impact peace and sustainability on the planet?

How do art, peace, and sustainability intersect?

Does the creative process of art making resolve conflicts?

Does art therapy build and sustain community?

Is art therapy a "green" practice?

You can create as many artworks as you want to and participate in two ways: 1) create your image in the space below, make an electronic scan or digital photo, and email to gallery@internationalarttherapy.org or 2) create your work on Polyvore.com at http://www.polyvore.com/art_peace_sustainability_an_interactive/group.show?id=72471 and submit to the *Art Peace Sustainability Event* web gallery. Have fun!
